STEAM Family and Community Engagement Plan

Use the chart below to begin planning your STEAM (science, technology, engineering, arts, and math) family and community engagement programming. Identify the following information: title, date, type of program, topic, participants, partners, and resources. For example, you might start planning an interactive exhibit or a STEAM family fun day. Consider how you might co-create a plan with families. Think about ways your plan responds to your agency's STEAM or family engagement goals. Make copies of this chart to record ideas about each program that you are planning.

Title:	**Date:**

Type of Program and Topic	**Participants**	**Partners**	**Resources**
What kind of program are you planning? STEAM topics:	How many and what types of participants do you expect? ☐ Families, including children ☐ Community members ☐ Educators ☐ Administrators Children's age range of focus:	Which community or early learning partners might you engage?	Which CPE Family Engagement Resources might you use (such as children's book guides, related activities, and "I'm Ready!" videos)?
